FIRST COMMERCIAL

CARPENTER:

Bing and boys and girls, that was real good...but now to go from the warmth and sunshine of that song, I'd like to open up my heart about the marvelous General Electric Refrigerator Food Freezer.

CROSBY:

Open right up, Ken.

CARPENTER:

Folks, did you know that a G. E. Refrigerator Food Freezer gives you two appliances in one beautiful cabinet? First off...you get a refrigerator modern as a flying saucer...a refrigerator with "moist cold" that keeps your fruits and vegetables so fresh-tasting you'd swear they grown right there. You get G. E.'s famous Rolla Drawers and a Butter-Conditioning Unit that keeps butter at just the consistency you want for smooth spreading. And you never have to defrost this fresh food compartment 'cause frost never forms.

CROSBY:

Attendez, Kenneth! Let me in here to dazzle the populace with a few facts about the Freezer in this combination. Yes neighbors -- built right into that same gleaming cabinet with the G. E. Refrigerator...you get a real zero-degree food freezer...a freezer with its own door and refrigerating system...its own temperature control. You can pack up to 70 pounds of food into that Winter Wonderland of a freezer. Pack it in and know that it'll be delicious.,tomorrow or next year! And G. E. FRefrigerators are so dependable that over 3½ million have been in service ten years or longer.

CARPENTER:

That's mighty dependable, Bing.

CROSBY:

Yessir, that's dependability that is Dee-pendable. So, wind on down to your G. E. dealer's right soon and gather an eyeful of that cool beauty...a General Electric Refrigerator Food Freezer.

INTRO TO BELL SISTERS

CROSBY:

Now, ladies and gentlemen, I'd like to present two girls who are among our very top tune delineators...these kids really have a very catchy singing style and I'm sure you've heard their many hit records...here, then, are -- the Bell Sisters!

(APPLAUSE)

CYNTHIA:

Hello, Mr. Crosby.

CROSBY:

Hello, Cynthia.

KAY:

Hi, Mr. Crosby.

CROSBY:

Hi, Kay...Say, I hear you girls have really been getting around since last we met.

CYNTHIA:

Oh, yes, we played the Paramount Theatre in Los Angeles ---

CROSBY:

I was very big there years ago.

KAY:

And we played Montreal ^{at} --- *Canada*

CROSBY:

I can still hear them cheering in Montreal. In English and French, mind you.

CYNTHIA:

Then we played the San Diego County Fair --

CROSBY:

Ah, that was one of my biggest stops! I used to finish my act there with a tepty-one gun salute from the Navy. What else happened, girls?

KAY:

Well, we went to New York and did some television.

CROSBY:

(PAUSE) What's that like?

CYNTHIA:

Well, you should know...you did that telethon with Bob Hope.

CROSBY:

I mean for money.

CYNTHIA:

Well, didn't people send in money to you and Bob?

CROSBY:

Well, in a way...but a lot of fine people really came th for the Olympic Fund.....Got a song ready for us, girls?

KAY:

Yes, we'd like to do "There's A Ship Comin' In."

CROSBY:

Oh, that's a great tune...heard your record on it. Move right in, girls, and take over.

'Bye.

Say, Bing.

CROSBY:

Yes, Ken.

CARPENTER:

Bing, do you ever get a hankering for oysters in the summertime?

CROSBY:

What was that?

CARPENTER:

I said, do you ever get a hankering for oysters in the summertime?

CROSBY:

I thought that's what you said...well, Ken, to join you in this non-sequitorian vein, I can truthfully say that I often crave succulent bivalves in the summer.

CARPENTER:

And do you crave strawberries in December?

CROSBY:

Yes,...now ask me about pickles.

SECOND COMMERCIAL(CONTINUED)

CARPENTER:

What I'm getting at, Bing, is that you can enjoy any kind of food at any season with a General Electric Food Freezer. A G.E. Food Freezer protects any goodies you entrust to its chilly arms...preserves all their natural lusciousness for a week...a month...or a year.

CROSBY:

I'M dropping some strawberries and oysters in mine.

CARPENTER:

Great. G.E. Food Freezers are spacious. With a G.E. Food Freezer you've got plenty of food on hand if Uncle Ezra or even the Canadian Army happens to drop in. And greatest of all...look at the savings...Many families say they save as much as \$120.00 a year. And here's some figures to play with...The new G.E. Food Freezer is 20 per cent quieter than previous quiet G.E. models. It costs 13 per cent less to operate than before. And it's styled so even a little miniature housewife can reach into every corner.

CROSBY:

Neighbor...why don't you amble over to your G.E. dealer's and bend his ear about a G.E. Food Freezer. Mmmm...a cool 120 extra iron men in the old bank account. I'd calculate there's worse things than having a G.E. Food Freezer around the premises.

CARPENTER:

Gee, that song sure brings back memories to me, Bing.

CROSBY:

Oh, did you used to walk Betty back home when you were going with her?

CARPENTER:

No, I was very gallant...I always carried Betty home piggy-back.

CROSBY:

Nothing too good for the little woman, huh?

CARPENTER:

No sir! -- I just bought Betty a new G. E. Washer.

CROSBY:

Well, that's true love!

CARPENTER:

Sure. Now she not only gets the whitest, brightest clothes ever, but she doesn't have to work at it. The G. E. Washer does the whole job automatically. G. E. Activator-Action soaks and cleanses clothes glistening clean individually, piece by piece, and then the G. E. Washer rinses 'em twice...and spins 'em so dry you can start ironing many pieces right away.

CROSBY:

Ah, what won't G. E. think of next?

THIRD COMMERCIAL (CONTINUED)

CARPENTER:

They've already thought of it, Bing. In the G.E. Automatic Washer...you get a new small-load selector that saves you gallons of hot water when you just have a couple of things to wash. There's a control that lets you stop the washer anytime...to add or remove clothes. There's a new white porcelain washbasket that resists corrosion....and a new interior light that shows you everything in the washer.

CROSBY:

Incidentally, Ken..if you'll feast your eyes on this little gem of the shirtmaker's art I'm sporting this eve...you'll be happy to know that it was recently laundered in a G. E. Automatic Washer and the Washer is still working!

CARPENTER:

They can take it! Well, ma'am, whether your problem is s dirt-heavy work clothes..dainty lingerie,..or ugh, shirts like Bing's.. they'll come really clean in a G.E. Automatic Washer.

CROSBY:

This boy makes sense. You stop in at your G. E. dealer's this week and feast your eyes on that washing wonder...a G. E. Automatic Washer. We fastidious dressers insist on G.E.
